MESSAGE: REF. AEWU/ 2/23/96

Dear Mr. Bower,

Subject: TA 2187-PRC: Anhui Environment Improvement Project  
— Wastewater Treatment Project

- AAA We have now reviewed the Lake Chachu Watershed Management Study and find the Report to be comprehensive, well prepared and in agreement with the terms of reference.
- BBB The recommendations contained in the report are germane to the captioned technical assistance and proposed loan. In addition, the study will be a valuable tool to assist the Anhui authorities in developing policies and investment plans to protect Chachu Lake's water quality.
- CCC We commend Dr. Troy Vassos of Novatec for his initiation in developing the study and obtaining CIDA's support and Mr. Murray Slezak of UMA for his efforts which were largely responsible for the quality and presentation of the Report. AEWU would like to thank these individuals and the three consulting entities for incorporating and addressing the issues and specific requirements requested by the Bank.

With best regards,

*Asad A. Shah*
